Sir:

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(c)

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(c), applicant brings to the attention of the Examiner the documents listed on the attached PTO 1449. This Information Disclosure Statement is being filed after the events recited in Section 1.97(b) but, to the undersigned's knowledge, before the mailing date of either a Final action, Quayle action, or a Notice of Allowance. Under the provisions of 37 C.F.R. § 1.97(c), this Information Disclosure Statement includes a certification as specified by Section 1.97(e).

Certification: The two patent documents (EP 0483783A2 and JP 8-8065) listed in this Information Disclosure Statement were first cited in a communication from the Korean Patent Office dated July 29, 2003, in a counterpart foreign application, and this

Information Disclosure Statement is being filed within three months of the mailing date of that communication.

Copies of the Korean Office action and two cited references are enclosed. JP 8-8065-A was previously made of record by Applicant in the IDS filed May 17, 2002; a machine translation was filed with Applicant's response of September 17, 2003. Applicant is filing a copy of the reference and translation and a copy of the article by Michaelson, also filed with Applicant's response of September 17, 2003, to ensure they are all made of record in this case.

Applicant respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claims in the application and applicants determine that the cited documents do not constitute "prior art" under United States law, applicant reserves the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 06-0916.

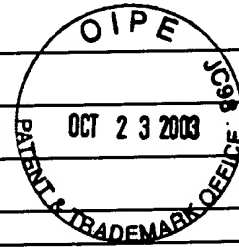

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
